Prey Tae, Chorm Chao, Phnom Penh

PROFILE

As a student specializing in both International Relations and Management Information Systems (MIS), I have cultivated a strong passion for technology and a keen interest in research. Moreover, I'm good at communication and problem-solving skills, which are integral to the field of Web development in technology. My ability to listen attentively allows me to effectively connect with individuals and understand their needs, aligning perfectly with the dynamic demands of today's society.
